

MyMaths Guidance

At the first screen, insert the school username and password.

School username: leverstock

School password: grid

A screenshot of a login interface with a dark blue background. At the top, the text "School username" is displayed above a white text input field containing the text "leverstock". Below this, the text "School password" is displayed above a white text input field containing four dots. At the bottom left is a circular icon with a question mark, and at the bottom right is a rounded blue button labeled "Log in".

At this point, please enter your portal username and password, which are on the sheet you were given by your teacher.

A screenshot of a login interface with a green background. A dark blue rounded rectangle contains the login fields. At the top right of the green area is a circular close button with an 'X'. Inside the blue rectangle, the text "My portal username" is above a white input field with the placeholder "Username". Below that, "My portal password" is above a white input field with the placeholder "Password". At the bottom left is a circular icon with a question mark, and at the bottom right is a rounded green button labeled "Log in". Below the blue rectangle, the text "Teacher Dashboard log in" is displayed as a link.

Once you have logged in, you will see the task/s that have been set for you to complete. You can also access various maths games and other resources. Click on the piece of homework you have been given.

You can go straight into 'start homework', or if you are unsure you can go to the lesson on the side, which will give you more guidance.

Once you have completed the activity, you MUST click on the 'mark it' button at the bottom of the screen. This will show you what you got correct or incorrect. If you have found it tricky you may want to have another go, looking at the lesson first if you have not already done so.
