

I am a foundation governor, a member of the School Improvement Committee and the Link Governor for RE. I have been a governor at Leverstock Green since 2014.

I have 3 children, 2 sons who have gone through the school and one daughter who still attends. It is from this my interest in governance began and I joined the governing body initially as a parent governor.

I have worked in education for the past 21 years and I am currently the Head of School at a local Church of England school. I am also a member of Holy Trinity Church, Leverstock Green.

Inclusion, the outdoors and developing a lifelong love of learning are areas that I am passionate about. I want all children achieve their full potential regardless of their starting point.

As well as a school governor I am also a cub scout leader. I have a keen interest in art and enjoy adventurous activities and being outside.
