

Roisin Gregory

I am a parent Governor and have lived in Leverstock Green for over ten years. My three youngest children have all attended Leverstock Green School. Two of them have additional needs so, as a parent, I understand the challenges of obtaining the right support for children.

I run my own successful photography business in Hemel Hempstead and previously achieved a Business Management degree. As a photographer, I work with a diverse range of families and children. I have previous experience in consumer revenue, customer service and marketing.

I have an interest in SEND and I am looking forward to developing my skills to support the school and parents in this area.
