

I am a co-opted governor for Leverstock Green Primary School, a member of the School Improvement, Resources and Head's Pay and Review committees. I am the link governor for maths and writing and also Health and Safety Governor. My term of office began on 10th July 2024.

I have two granddaughters who attend the school and am involved and interested in their school lives.

Until July 24 I was a serving headteacher of 22 years at another local school and it was as a result of this together with an enduring interest in education and all things school related that prompted my wish to become a governor at Leverstock Green.

I enjoy spending time with my family and friends and look forward to developing new personal skills and interests.

My personal ethos and Christian beliefs align closely with those of Leverstock Green School.
